

Proposal for the KCKA Development Kids League ■■

1. The Vision

To establish the premier youth development league in the Rwenzori region, providing a structured, safe, and professional environment for children to showcase their skills, build character, and stay engaged in sports.

2. Why This League?

Gap in Competition: Currently, many kids play without a regular league structure. This program fills that gap with organized weekend fixtures.

Professional Standards: Games will be overseen by the academy's trained coaches, ensuring high-quality technical standards and fair play.

Community Unity: Bringing together different villages and schools across the Kasenda sub-county to foster friendship and peace.

3. League Structure (Launching Nov 2026)

Categories: U-10, U-13, and U-15 divisions.

Format: A round-robin "points" league followed by a "Championship Finals" day.

Inclusivity: A mandatory requirement for teams to include girl players supporting our Girls' Empowerment goals.

4. What We Need (Sponsorship & Partnership)

We are looking for partners to help provide:

Equipment: Balls, cones, and bibs for match days.

Awards: Trophies and certificates for "Player of the Month" and "Fair Play" awards.

Branding: Matching jerseys to give the kids a sense of professional pride.
